

# Code alpha

## Task#02: Stock Portfolio Tracker

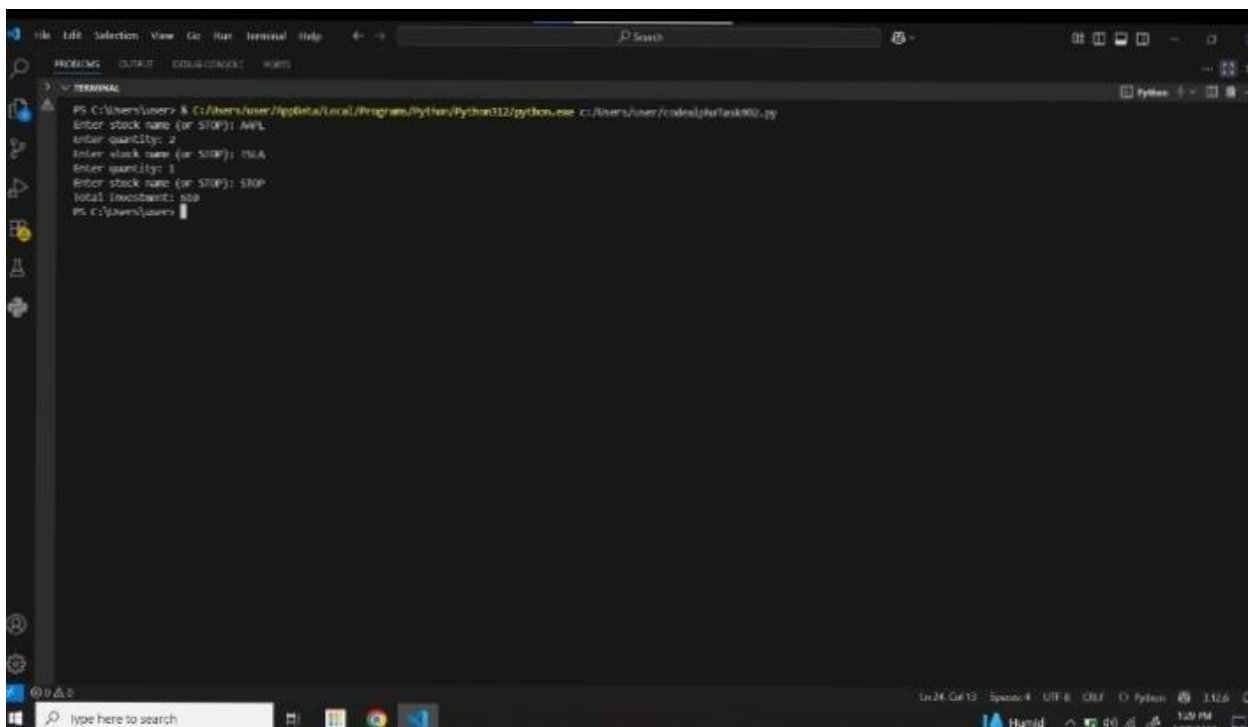

### Code

```
1 #Task#02: Stock Portfolio Tracker

6 while True:
7     stock = input("Enter stock name (or STOP): ").upper()
8
9     if stock == "STOP":
10        break
11
12    qty = int(input("Enter quantity: "))
13
14    if stock in stocks:
15        total_investment += stocks[stock] * qty
16    else:
17        print("Stock not found")
18
19    print("Total Investment:", total_investment)
20
21    # save to file
22    file = open("investment.txt", "w")
23    file.write(f"Total Investment = {total_investment}")
24    file.close()
```

# Output

The screenshot shows a Python IDE window with a terminal pane at the bottom. The terminal displays the following output:

```
PS C:\Users\User> & C:\Users\User\AppData\Local\Programs\Python\Python312\python.exe c:/Users/User/code/task90.py
Enter stock name (or STOP): AAPL
Enter quantity: 2
Enter stock name (or STOP): TSLA
Enter quantity: 3
Enter stock name (or STOP): STOP
Total Investment: 300
PS C:\Users\User>
```

The IDE interface includes a menu bar (File, Edit, Selection, View, Go, Run, Terminal, Help), a search bar, and a sidebar with icons for Explorer, Search, Run and Debug, and Source Control. The status bar at the bottom shows the file path, encoding (UTF-8), and the Python version (3.12.0).
